

# ISAIR 2017

Kitakyushu, Japan  
25-26 Nov., 2017

## The 2<sup>nd</sup> International Symposium on Artificial Intelligence and Robotics

### Honorary Chairs

**Seiichi Serikawa**

Kyushu Institute of Technology, Japan

**Kuan-Ching Li**

Providence University, Taiwan

### General Chair

**Hyoungseop Kim**

Kyushu Institute of Technology, Japan

### General Co-Chairs

**Huimin Lu**

Kyushu Institute of Technology, Japan

**Yudong Zhang**

Nanjing Normal University, China

**Shenglin Mu**

National Institute of Technology-Hiroshima,  
Japan

**Joze Guna**

University of Ljubljana, Slovenia

### Program Co-Chairs

**Yin Zhang**

Zhongnan University of Economics and Law,  
China

**Zongyuan Ge**

IBM Inc., Australia

### Finance Chair

**Yujie Li**

Yangzhou University, China

### TPC Chairs

**Xing Xu**

University of Electronic and Technology of  
China, China

**Li He**

Qualcomm Inc., USA

**Quan Zhou**

Nanjing University of Posts and  
Telecommunications, China

**Tongwei Ren**

Nanjing University, China

**Shota Nakashima**

Yamaguchi University, Japan

### “Future Artificial Intelligence for Robotics”

The integration of artificial intelligence and robotic technologies has become a topic of increasing interest for both researchers and developers from academic fields and industries worldwide. It is foreseeable that artificial intelligence will be the main approach of the next generation of robotic research. The explosive number of artificial intelligence algorithms and increasing computational power of computers has significantly extended the number of potential applications for robotic technologies. It has also brought new challenges to the artificial intelligence community. The aim of this symposium is to provide a platform for young researchers to share up-to-date scientific achievements in this field.

We invite original contributions on all topics related to Artificial Intelligence, Computer Vision, Multimedia and Robotics, including, but not limited to:

- Audio Multimedia Learning
- Cross Multimedia Learning
- Cloud Multimedia Processing for Robotics
- Deep Learning for Robot Vision
- HPC GPUs for Deep Learning
- Multimedia for Robot Control
- Multimedia for Robot Navigation
- Multimedia Fusion for Robotics
- Multimedia Communications for Robots
- Multimedia Compression for Robots
- Intelligent and Learning Control
- Robotics and Mechatronics
- Robust and Nonlinear Control
- Biomedical Control Systems
- Robotic System Modeling and Simulation
- Machine Learning
- User Experience for Multimedia Systems
- Wireless Multimedia Robots
- 3D Scene Reconstruction
- RGB-D Vision
- Pattern Recognition and Machine Vision
- Computational Imaging
- Object Tracking
- Deep Learning for Computer Vision
- Big Data for Computer Vision
- Computer Vision for Ocean Observing
- Vision-based Robotic Manipulation
- AI-based Vision Sensors
- Medical Imaging Sensors
- Acoustic Sensors
- Sensor Networks
- Tactile Sensors

### PAPER SUBMISSION, PUBLICATIONS AND INDEXATION

Each submission should be regarded as an undertaking that, should the submission be accepted, at least one of the authors must register the paper and attend the conference to present the work in order for the accepted paper to be submitted into the IEEE digital library. Submission site: <https://easychair.org/conferences/?conf=isair2017>.

All of the accepted papers will be recommended to special issues in sustainability-related EI or SCI indexed journals, such as Computers & Electrical Engineering (IF=1.084), IEEE Access Journal (IF=1.270), Multimedia Tools and Applications (IF=1.331), International Journal of Embedded System, International Journal of Computational Science and Engineering.

### IMPORTANT DEADLINES

Full paper submission..... July 01, 2017  
Notification of paper acceptance..... August 01, 2017  
Registration & final paper submission..... August 15, 2017
